

REASONS FOR PROPOSED TREE WORK

T24/219 Lime

Reduce by c.10m to establish a shorter tree height

Current Height 20m

Finished Height 10m

The tree has a coalescing area of decay and hollowing from below ground level up to c.2.3m – please TCR/292/21 attached for the report’s findings.

The tree is located close to the western boundary wall and The Surgery; any failure in a westerly direction could result in the tree reaching the parked cars and doctors’ surgery.
