

Flat Sheets

Prelaq Mica 0.6mm

Cladco Prelaq Mica Flat Sheets are often used for a range of projects, including those wanting to make their own flashings, gates, trailer beds, and roofs.

Prelaq Mica coating has increased wear, corrosion and weathering resistant properties with high-quality colour retention. Manufactured according to BT patent (bio-based technology), Prelaq Mica coating holds a high environmental position and is available in a 0.6mm thickness, giving your Steel Flats a premium look. Flats are available in three colours: Black, Copper Brown and Graphite Grey.

Make sure to browse our full range of Roofing Sheets here at Cladco Profiles, as well as everything you need for a successful roofing build, including Flashings and Accessories.
