Householder development: Development to an existing dwelling-house or development within its curtilage

Other: Anything not covered by the above category

Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

Omit coloured glass spandrel panels in various locations and replace with metal cladding (to match the new cladding system) installed across the development

Please state why you wish to make this amendment

In several locations combustible insulation is positioned behind coloured glass spandrel panels within the glazing system to Blocks A, C and D and requires removal. The combustible insulation is bonded to the glass resulting in damage to glass during removal, and the coloured glass is achieved by combustible interlayers in the bonded glass system. The replacement glass specification to replace the existing (when removed) does not meet the performance, technical requirement of fire performance of the system and will require replacement with a metal cladding cladding panel (to match the new cladding installed as part of the development).
