

SCHEDULE OF WORK

37 The Syke Brigstock

T1 – Maple the tree is growing too large for its location and encroaching on the canopy of adjacent trees so we apply to reduce the crown by 1.5 meters

T2- This tree has poor form as its too close to adjacent trees and struggles for light so we apply to remove this tree

T3- Cherry Plumb this tree is growing too tall and needs to be reduced in height by 2meters to maintain a good shape and size for its location.

T4- Yew this tree is growing too large for its location next to the driveway so we propose to reduce the height by 1.5m.

T5- Yew this tree is growing too large for its location next to the driveway so we propose to reduce the height by 1.5m.
