

Do not scale, use figured dims, only. All dims, to be checked on site by builder before work commences. If any discrepancies are found, ATK Designs to be notified for amendments. All work to be carried out to relevant British Standards, codes of practice & current B.Reqs. Where structural alterations take place great care must be taken by the builder, to afford restraint to all affected areas, during & after the building work. If during excavation any basements, cellars, wells etc. are found, ATK Designs must be made aware for design amendments before continuing. Where new loads are imposed on existing lintels, they must be checked by Builder for adequacy & to L.A. approval. If found not to be adequate, lintels must be replaced. Where applicable this Dwg. must be read in conjunction with Structural Calculations. If Dwg. conflict with calculations, calculations must take preference.
