

LEGEND NOTES

Note A	Existing saplings, Laurel, Snowberry etc retained
Note B	Strip along back edge of new kerbline - level & seed with woodland edge grass seed mix
Note C	Mown grass strip for neatness - min. 0.6m wide
Note D	Areas to rear of new hedge - tidy & leave best of existing groundcover & leave to re-vegetate naturally. Bare area spread with bark mulch for neat effect
Note E	Existing retained vegetation
Note F	New hedge planting stops where meets retained vegetation
Note G	Pinned steel edge kerb detail required here to ensure planting succeeds
Note H	Low retaining wall - see Engineers plans for details
Note J	Small/narrrow strips - loose laid 20mm buff shingle
Note K	Pleached trees to be provided with vertical post and 5 (min.) horizontal strained guide wires as support
Note L	2 x neat log piles - final locations agreed on site with Ecologists
Note M	Retained shrubs

Note to contractor - refer to this drawing only for soft landscape details (planting)

All external works indicated on Architects plans

For all proposed closeboard fencing - allow for occasional hedgehog gaps in gravel boards (see locations on plan)

KEY			
	Existing tree retained & protected (see Tree		· Grass - turf
	Report for all details)	100 00 00	Loose laid 20mm buff shingle in narrow strips/back areas
	Existing understorey & shrubs retained		Proposed low retaining wall - see Engineers plans
(+)	Proposed tree - various sizes	Note A	See Legend Notes
\bigcirc	Proposed large specimen shrub or small tree		
<u> </u>	Pleached trees - provided with post & horizontal wire support		Ecology Enhancements (all boxes/tubes available from nhbs.com)
0	Clipped evergreen cone	bt	3 No. Schwegler 1FR Bat tubes fixed to masonry as
	Clipped hedge (native & evergreen)		close to eaves as possible.
0	Climber on frame	000	3 no. Orlando swift boxes fixed to wall as close to eaves as possible.
l	Shrubs and groundcover	esn	2 no. Eco Starling nest boxes fixed to wall as close to eaves as possible.
11/1	Rear areas - retain best of existing groundcover & spread with bark mulch for neatness		3 no. Vivara Pro WoodStone House Sparrow Nest

boxes fixed to wall as close to eaves as possible.

with BS5837:2012

All existing trees & planting to be retained within or adjacent the site shall be protected in accordance

Contractor shall establish location of all services & drainage before starting any work

Groundwork – soil levels for shrub beds and areas of grass should have any compacted subgrade thoroughly broken up by machine before instructing the groundworker/landscape contractor to spread topsoil. All rubble, concrete etc to be removed before spreading topsoil

Ensure narrow planting beds are free of concrete footings before planting. If the concrete cannot be removed then the section of bed shall be paved or spread with gravel

All imported topsoil to BS 3882:2015 multipurpose grade. Sample to be approved by landscape subcontractor before earthworks carried out. Our recommended soil is 10mm Super Soil (is a 70:30 blend of quality, screened British Standard topsoil and Eco Mix soil improving compost) by Eco Tel: 01202 593601

Minimum topsoil depths to be: Trees - 1x1x0.8m pit, hedges 0.6x0.5m trenches, Shrubs and groundcover 0.4m & Grass 0.15m

1 no. Eco Tawny Owl Nest Box fixed to large tree min. 3m from G.L

3 x neat log pile for wildlife

6 x Hedgehog hibernation feature

NOTE:

If 10L stock not available, supply 5L stock and increase numbers per sq. m. to suit All shrub beds mulched with 75mm min. deep approved bark mulch

20-30, 3L pot

15

All 10L shrubs at 3 plants per sq. m. all 5L shrubs at 4 plants per sq. m. & all 2/3L shrubs at 5 plants per sq. m.

Species to be randomly mixed in groups of one species of varying sizes. Avoid straight lines, staggered.

Plants planted in 0.3 x 0.3 x 0.4m deep pit, backfilled with 80% clean topsoil well mixed with 20% TPMC and 20 grams granular fertiliser.

<u>Grass turf</u> To be <u>'Rolgm</u>' or similar approved turf. Sample of turf to be approved prior to delivery to site. Areas of grass to be spread with 150mm deep topsoil over clean subsoil with any areas of compaction broken up before spreading topsoil.

Woodland Edge Grass Seed mix (along edge of drive -see Note B)

Seed mix to be EH1 Hedgerow mixture supplied by Emorgante Seeds. Areas of grass to be spread with 50mm deep topsoil over clean subsoil with any areas of compaction broken up before spreading topsoil.

All final tree positions pegged and agreed on site before excavating tree pits Where planting close to/around existing vegetation to be retained, all planting carried out with care to ensure that existing vegetation is not damaged

Correct species to be supplied and no substitutions to be made without prior agreement of the Landscape Architect

PLANTING SPECIFICATION NOTES

All trees in grass mulched with 75mm min. deep <u>Melcourt</u> bark mulch (min. 1m diameter).

All trees in grass to be fitted with black strimmer guard.

All 'instant' hedging to be supplied with drip irrigation on timer from day 1 after planting.

Provide climbers with tensioned wires where species require additional support in addition to supplied

All hedge and shrub planting mulched with 75mm deep <u>Melcourt</u> ornamental bark mulch.

All climbers mulched with 75mm deep Melcourt ornamental bark mulch or buff 20mm shingle.

Bark mulch to be Melcourt Spruce Ornamental (or similar approved) laid to a minimum depth of 75mm. Mulch to have a nominal chip size of 5-35mm, Fire tested in accordance with BS 4790:1987 and

All existing trees & planting to be retained within or adjacent the site shall be protected in accordance

Contractor shall establish location of all services & drainage before starting any work

Groundwork – soil levels for shrub beds and areas of grass should have any compacted subgrade thoroughly broken up by machine before instructing the groundworker/landscape contractor to spread

Ecological enhancement elements added to plan as requested by client
