This website uses cookies

We use cookies to personalise content and ads, to provide social media features and to analyse our traffic. We also share information about your use of our site with our social media, advertising and analytics partners who may combine it with other information that you've provided to them, or that they've collected from your use of their services.

This Batbox is available as either a single-chamber (pictured) or a double-chamber box. Improved draught-proofing makes these boxes the ideal roost for our indigenous bats.

Follows design specifications from the Bat Conservation Trust and uses untreated ply in the manufacture of this box. This box has a grooved back for easy access, and an accurately sized entrance / exit slot to the floor of the box.

Specification

Exterior quality resin bonded ply, manufactured with surface sunk nails to resist rusting, untreated due to the sensitivity of bats to even non-toxic wood preservatives.

Single Chamber Batbox size: 34cm Height x 16cm Width x 8cm Depth

Double Chamber Batbox Size: 34cm Height x 16cm Width x 9cm Depth

Bat preferred: Thoughtfully designed boxes make safe and secure homes.

Chosen by professionals: With all the right features, the boxes of choice for professionals!

Selected by you: Modern designs, traditionally made in wood - look good, and work well.

Designed by experts: Designed with the help of specialists from the Bat Conservation Trust and London University.

Built to last: Hand crafted to cope with the best and worst of the weather, year in year out.

Environmentally positive: Direct action to help wildlife survival rates, encouraging biodiversity; FSC timber; Zero carbon footprint in use.
