Description of the Proposal
Please note in regard to:
 Fire Statements - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance. Permission In Principle - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below. Public Service Infrastructure - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.
Description
Please describe details of the proposed development or works including any change of use
We would like to develop a campsite in one of our fields at Roskilly's Farm. Therefore we would like to apply for a change of use of land from agrucultural land to a campsite. Our relatively small campsite would offer 15 unmarked pitches for the outskirts of the field. The field is quite large for the number of pitches so there is plenty of room for campers, we hope this means the land isn't disturbed, as well as them being unmarked grass pitches so there is no infrastructure needed or being put in place for the pitches. The campsite plans to be open just for the summer months when the weather is more permitting, and during the winter the land can be grazed by our animals. This means there isn't any perminant buildings or change to the land it's self, just regular grass cutting.
