

Dwarf/shelved walls to perimeter to be removed by others

NOTES

The location, number and length of the fixings, remedial reinforcement and/or Heli Pile® points shown on this drawing are intended only to give an indication of the methods to be used and the amount of material and work that is required to carry out the repairs indicated. The precise number, location and length of fixings may vary depending upon the exact conditions encountered during installation.

- Double Bar Flex
- Pinned/bent one end
- Single Bar Flex
- Pinned/bent one end
- Cem Flex
