Is any land covered by, or within the curtilage of, the building:

Description of Proposed Works, Impacts and Risks Proposed works Please describe the proposed development including details of any dwellinghouses and other works proposed

No structural changes to the building proposed.

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

All habitable rooms have windows providing sufficient natural light

What will be the net increase in dwellinghouses?

1

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development.

Impacts and risks

Please provide details of any transport and highways impacts and how these will be mitigated, particularly to ensure safe site access

There will be no impacts on transport and highways as the building is in a terrace of dwelling houses sharing transport access.

Please provide details of any contamination risks and how these will be mitigated

All hazardous materials will be removed from the site prior to change of use

Please provide details of any flooding risks and how these will be mitigated.

There is no history of any flooding with regard to the property and it is situated on the brow of a hill where water flows away in all directions. This is in flood zone 1

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency). Check if your site location is in Flood Zone 2 or 3 online

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated

The house is subject to traffic noise from the main road at the front and good sound proofing would be advisable

If the building is located in a conservation area, and the development involves a change of use of the whole or part of the ground floor. Please provide details of the impacts that the change of use will have on the character or sustainability of the conservation area and how these will be mitigated

Any changes to the property will be in line with the conservation area and in keeping with other neighbouring dwellings

If the building is located in an area currently in use for general or heavy industry, waste management, storage and distribution, or a mix of such uses.

Please provide details of the impacts on intended occupiers of the development of the introduction of residential use in the area and how these will be mitigated

The surrounding area is mainly dwelling houses, shops, and pubs. The only industry in the area is very light and would not have any impact on the lives of residents
