Please indicate why you are applying for a lawful development certificate

- An existing use
- Existing building works
- An existing use, building work or activity in breach of a condition

**Being a use, building works or activity which is still going on at the date of this application.**

## Description of Existing Use, Building Works or Activity

Please fully describe each existing use, building works or activity for which you want the lawful development certificate. Where appropriate, show to which part of the land each use, building works or activity relates

Dwelling and garden.

## Grounds for application for a Lawful Development Certificate

Under what grounds is the certificate being sought

- The use began more than 10 years before the date of this application
- The use, building works or activity in breach of condition began more than 10 years before the date of this application
- The use began within the last 10 years, as a result of a change of use not requiring planning permission, and there has not been a change of use requiring planning permission in the last 10 years
- The building works (for instance, building or engineering works) were substantially completed more than four years before the date of this application.
- The use as a single dwelling house began more than four years before the date of this application
- Other - please specify (this might include claims that the change of use or building work was not development, or that it benefited from planning permission granted under the Act or by the General Permitted Development Order).

Is the certificate being sought for a use, operation, or activity in breach of a condition or limitation?

- Yes
- No

Please state why a Lawful Development Certificate should be granted

The building and the use of it and its garden and driveway curtilage as a dwelling is immune from enforcement.

The previous application 23/02591/CLE was returned without explanation as to its registration/validation issues and this is a re-submission of the same application,

Permission for a temporary dwelling near the site was granted in 2013 13/0929/P/OP, but this temporary dwelling was never constructed on site. The existing dwelling is differently positioned and of an entirely different design and construction to the permitted scheme, so had no permission.

The dwelling that is the subject of this application arrived on to its existing site position as a temporary structure, initially used for the storage of agricultural items, all more than four years ago. It was then permanently connected to the ground and permanent services added, thereby becoming a building (S171B(i)) and changed the use from agriculture by being used then as a dwelling (S171B(ii)), all more than four years ago.

- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
