Identification of Tree(s) and Description of Works

Before answering these questions you might find it helpful to consult a tree surgeon to clarify what needs to be done.

Please provide a full and clear description of:

- The proposed works
- The trees affected including species and location

At the end of my garden there are 4 beech trees and 1 hornbeam. They are all within 8 - 12 feet of the end stone garden wall which itself then drops 8 feet and forms part of a long wall that borders Pen-Y-Pound the bottom of the trees are at the top of the wall (see plan 2 for picture). I have been advised by my tree surgeon (Treescape Tree Services, Abergavenny) that 3 of the Beech trees have now reached approximately 100 feet height and, given the proximity to the wall the height of the trees and the strengths of winds coming down Pen-Y-Pound should be reduced in height by approximately 25 feet.

Trees protected by Tree Preservation Order should be numbered according to the First Schedule of the Tree Preservation Order. For example - T3 oak; two beech and one birch in G2.

You must identify the trees on a sketch plan showing the location in relation to building(s), named roads and boundaries.

Please state the reference you have given the plan (as described above)

Attached plan 1

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work
- identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - marking all trees on the plan, but only numbering those to which you want to carry out work
 - showing the approximate distance between the application tree(s) and buildings
 - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Trees - Reason(s) for work(s)

Please state the reasons for carrying out the proposed works on the tree(s)

At the end of my garden there are 4 beech trees and 1 hornbeam. They are all within 8 - 12 feet of the end stone garden wall which itself then drops 8 feet and forms part of a long wall that borders Pen-Y-Pound. I have been advised by my tree surgeon (Treescape Tree Services, Abergavenny) that 3 of the Beech trees have now reached approximately 100 feet height and, given the height of the trees, the proximity to the wall (which restricts the root's grip) and the strengths of winds coming down Pen-Y-Pound should be reduced in height by approximately 25 feet.

Do your reasons for carrying out the proposed works include any of the following

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall

- Yes
 No

Alleged subsidence damage

- Yes
 No

Trees - Additional Information

Are you providing additional information in support of your application?

- Yes
 No

If Yes, please provide the reference numbers of plans, documents, professional reports, etc in support of your application

I enclose 2 documents

Plan 1 is a diagram showing the trees needing work and their location to roads and other properties.

Plan 2 is a photograph showing the proximity of the trees to the boundary wall of Pen-Y-Pound - The trees are so tall it has not been possible to capture their height on a photograph.

Tree Ownership

Is the applicant the owner of the tree(s)?

- Yes
 No

Tree Preservation Order Details

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?
