### Why is my EPC no longer in PDF format?

On 20/09/2020 the Government made some changes to Energy Reports. The biggest change is that all Energy Reports (including Domestic, Commercial & New build EPCs, DECs, and Air Conditioning Reports) are no longer created and provided as PDFs, but are instead be URLs (or "links") to the EPC page residing on a ".gov" website. While a printable version will be available there after lodgement, it is the page on the online register itself that is now classed as the EPC, instead of any PDF or physical version.

Energy Reports of all types are now hosted on one central register, please follow this link to access your certificate:
