8:30 - 21:00

Saturday  
9:00 - 14:00

Sunday - Closed

The client has been self employed for 6 years and has built up a large client base. She is currently having to drive to clients houses and take large equipment with her. The garage storage room would be a perfect size for her business and does not need much work to be converted to this usage. As she works on one client at a time there will be one parking space by the salon which will be designated for the salon only. The drive is large enough for her cars to be parked out of the way of any visitors.
