### Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

A new parking space is proposed with the access from St Peter Street. Also it is proposed to drop the kerb at the distance mentioned on the site plan drawings.

It is proposed to make the area around the parking space "greener" so that the space looks as aesthetically pleasing as possible. This is also done to break up the continuous walls that form the most part of St Peter Street. It is important to increase the "green" feel of this gap as it give relief to the continuous walls.

The windows annotated are to be double glazed and there is to be a replacement back door. The current back door is if a 60's style and the applicant would like to return the character to the door by replacing with a door.
