P-PRELIMINARY T-TENDER C-CONSTRUCTION

Original railings made good as required (including clean and repaint) and reinstated including original gate. Horizontal 'top cage' NOT reinstated.  
 Top bar of railing (circa 40mm square) must be continuous as indicated, with full strength butt welds where previously cut for removal.

Existing railing sections. Generally appear to be in fair condition and only in need of putting back into position and welding back together, plus decorative repair. Still set into base stones, which appear adequate for reinstatement.

Extg hook support

Existing gate, frame, and spandrel panel. Requiring various repairs.
