On Behalf Of: CD-PLS Div-Environmental Strategy Unit

### **Comments**

App No: 24/00299/DOM

Proposal: Proposed single storey side extension. Infill existing front corner at ground floor. First floor front extension over existing former garage. First floor rear extension. Proposed porch.

Changes to fenestration and new cladding.

Address: Baytrees 11 The Wad West Wittering Chichester West Sussex PO20 8AH

#### **Bats**

The lighting scheme for the site will need to take into consideration the presence of bats in the local area and the scheme should minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding.

We require that a bat box is installed on the building / trees facing south/south westerly positioned 3-5m above ground.

#### **Hedgehogs**

Any brush piles, compost and debris piles on site could provide shelter areas and hibernation potential for hedgehogs. These piles must be removed outside of the hibernation period mid-October to mid-March inclusive. The piles must undergo soft demolition. A hedgehog nesting box should be installed within the site to provide future nesting areas for hedgehogs

#### **Nesting Birds**

Any works to the trees or vegetation clearance on the site should only be undertaken outside of the bird breeding season which takes place between 1st March 1st October. If works are required within this time an ecologist will need to check the site before any works take place (within 24 hours of any work).

We would like a bird box to be installed on the building / and or tree within the site.

Kind Regards

Liz
