Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

The dormer window on the south facing roof needs a complete overhaul. Most of the sash window frames and the uprigths are rotten and need replacing. Our intention is to replace like for like all the rotten bits of wood with hardwood replacements and repair those bits of woodwork that can be repaired. We anticipate that we will remove the roof for the alterations, repair and replace anything that is required and then put it back in place. Currently there is secondary double glazing which has been in place for 20+ years and is not very efficient on the sash windows. We would prefer to replace this with sealed double glazed units which will not only look better but be more efficient and help limit heat loss and carbon emissions from the house
