Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

The current plans are for a first floor extension of 3.5 meters over the ground floor extension of 4.5 meters. This has meant that additional steels are required to support the external wall of the first floor as they are not aligned with the external wall of the ground floor. Further to this, additional flat roof space also needs to be created.

Due to this the cost of works and the build time have increased significantly and I am finding them more burdensome.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

I would like to ask that the first floor extension be amended to come in line with the ground floor extension so that both floors are extended by 4.5 meters. The width of the extensions will remain unchanged. This would remove the requirement of additional steels which would reduce the build cost and build time which would mean that the overall project is more viable. The additional space created would be used as an en-suite which would be essential for a family home.
