Details of the pre-application advice received
It is considered that the dormer extension element of the proposed development as shown on the pre-application drawings would by reason of its scale and size result in a detrimental effect on the character of the host property and its contribution to the surrounding area contrary to relevant policies. It is therefore advised to reconsider the scale and size of this element of the scheme in order to address the issue listed above.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
