Biodiversity net gain
Householder developments are currently exempt from biodiversity net gain requirements.
However, this exemption still needs to be confirmed by the applicant or agent when making a householder planning permission application.
☐ I/we confirm that the proposed development, if granted permission, would be exempt from the general biodiversity gain condition.
Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended) sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'general biodiversity gain condition'.
However, the 'general biodiversity gain condition' does not apply in relation to planning permission for a development which is the subject of a householder application, within the meaning of Article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).

The development needs some alterations and amendments to be acceptable predominately the removal of the dormers. It is recommended that the proposed ridge height for the side extension should meet the ridge height of the neighbouring dwelling to create a natural flow along the terraces. Additionally, it is recommended that the proposal meets the ridge of the host dwelling and does not project beyond it. It is recommended that the 1st floor right elevation double window is changed to a single window to match that of the host dwelling and neighbouring dwelling windows. Lastly, it is recommended that the parapet wall is removed, and the roof lights are removed from the proposal. Front/Rear Dormer is not acceptable in principle - removed from scope. Revised roof form similar to no. 10 Poplar Place considered more feasible, subject to council assessment via householder planning application.
