

The Old Rectory, Church Road, Eversley, Hook, Hampshire, RG270PX

22/02497/CON & 22/02496/CON Bricks and Mortar

Attached are two samples

Sample A: is a reworked sample of the original mortar taken from the rear gable wall

Sample B: is the proposed mortar to be used.

Mortar is 1:3 (1 part NHL : 3 parts graded sand)

NHL strength grade 3.5 to rear gable and wall plates of North wing

NHL strength grade 5 to be used on the chimney flaunching

NHL strength grade 2 to be used on the front elevation

Mortar bed joints to be 10 to 15mm to match, with pointing to be flush, brushed back with wire brush finish.
