Dear Mr Robson,

Thank you for your swift attention to my application to reduce the two conifer trees to the frontage of my garden.

My request is that the heights be reduced by approximately 6 metres which will make them easier to maintain in the future and prevent too much swaying in the strong winds, particularly as they near to the house.

This, I feel will not be detrimental to the overall look of the frontage, bearing in mind we are on the Conservation Line within the village.

I look forward to your reply.

Regards,

Gaynor Thompson

Good Afternoon

Thank you for your application.

On the application form, it is stated that the crown of two Conifer trees are to be reduced by 30% in height. Please could you provide an approximate measurement in feet or metres as to the amount each crown is to be reduced by (alternatively, this can be illustrated on photographs with a line depicting where each crown is to be reduced to).

Please could you provide the above information via email at your earliest convenience as I am unable to proceed with the validation of your application without it.

Kind regards

**Oliver Robson**
