

Attachment: III

Bishop Burton Parish Council Proposed Tree works in respect of Leylandii Hedge and Laurel next to Bishop Burton Village Hall

Location:

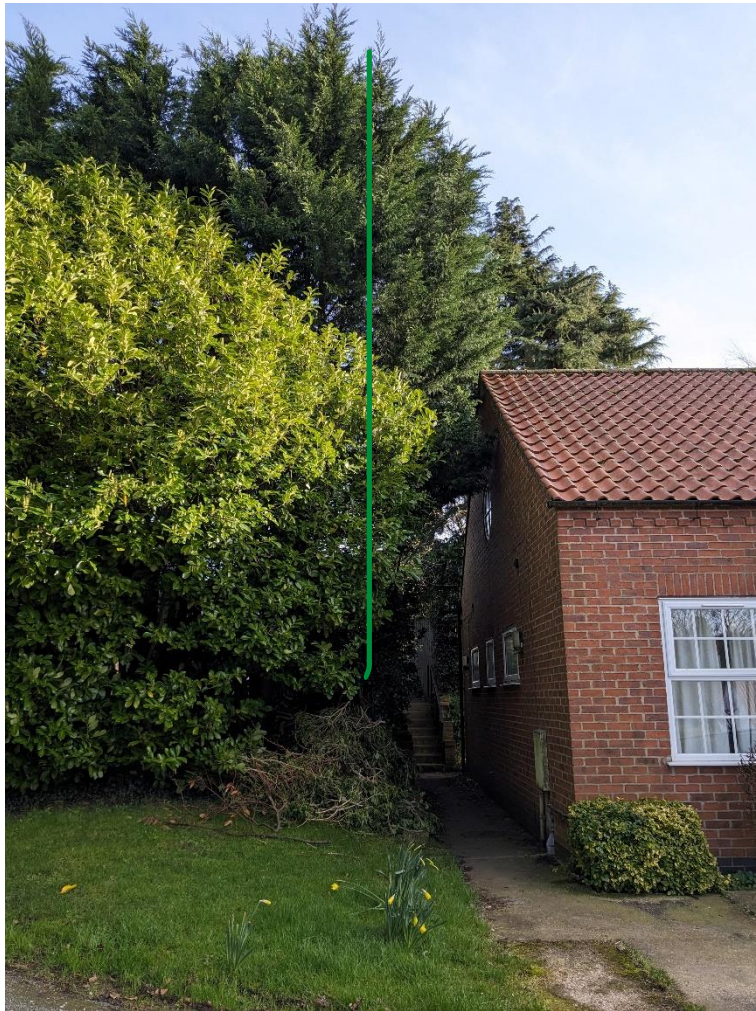

Proposed works: To reduce the size and shape the Laurel, which has got out of hand, to trim one of the Leylandii back to the path, and trim the rest of the Leylandii hedge back.

Laurel

To reduce the size and shape the Laurel as illustrated back to the green mark. It has got out of hand and is encroaching on the paths.

Leylandii

To trim back to the path. It is currently overhanging the village hall and concern has been raised that it may damage the roof. Extent of proposed works is shown by the green line.

To lightly trim back the remaining leylandii so that they are not encroaching on the road and pathway.

Area to be lightly trimmed back.
