## Ownership of Trees

Is the applicant the owner of the tree(s)? \*

Yes  No

## Details of Tree Protection

Under what procedures/designations are these tree(s) protected? \*

Tree Preservation Order

Conservation Area

Condition on Planning Permission

Please provide any relevant details about the Tree Preservation Order or other protection (e.g. Title and date of the Tree Preservation Order, if known). \* (Max 500 characters)

Unknown. We built a house on this land in 2007. We are aware our trees are under TPOS. We are looking to reduce in height some of our trees and also some of our neighbours land which is owned by the Church of Scotland.

Please provide the application reference no. given to you by your planning authority for your previous application: \*

## Identification of Tree(s) and Works Proposed

Please indicate the tree(s) and provide a full detailed specification of the works you want to carry out.

Give details of the species of the tree(s) and include an accurate plan showing positions(s) of the tree(s) in relation to buildings, named roads and boundaries. A group of trees can be treated as one. If the trees are protected by a TPO, please try to number them as shown in the First Schedule to the Tree Preservation Order (for example T3 Oak; two Beech and one Birch in G2; seven Ash in A1; sycamore in W1). You may submit a schedule of works.

Tree description: \*

Mature predominately lime trees, ? one sycamore

Works description: \*

Proposing to reduce the height in half approximately of approx up to 8 trees.

Note: if you are submitting a schedule of works or a plan, please give the reference number in the description of the works.

## Reason for Proposed Tree Works

Please state the reason why you wish to carry out the proposed works to tree(s). In particular, please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified. \*

Health or safety of the tree(s) – e.g. it is diseased, fears that it might break or fall.

Alleged subsidence damage.

Other (please specify).

If you have selected Health or safety of the tree(s), or Other you should provide a report by a tree professional (e.g. arboriculturist, horticultural adviser).

If you have selected Alleged subsidence damage please provide a report by an engineer or surveyor, together with one from a tree professional – to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over a period of at least 12 months; other vegetation in the vicinity and its management since discovery of the damage.

If Other, please provide further details: \* (Max 500 characters)

All the trees in question are in too close proximity to our home for the height they are now at. One fully mature lime within the cluster of trees at our neighbours property has just come down from the base in the recent storm, this was proposed 'safe' by a recent tree surveyor. We love the trees, we do not want to take them down. We only want to reduce them in height for the safety of our home, we have a young baby and there are a number of young children who live in close proximity to us.
