Design and Access

Churchside House High Street Mildenhall IP287EQ

Full Description

Existing

Churchside House is mid 1980's brick built chalet style house with 4 bedrooms , as the name of the house suggests , the house sits behind a brick wall and is viewed by the side of the church

The property was built in the garden of the shops to that fronts the high Street, and is accessed via a private electric gated drive

Proposed

The proposal is to remove the current porch roof and replace with a enclosed porch which will be larger with an over hanging roof for shelter.

The extension will be constructed from brick and block to match the house, with a pitch roof with velux windows to all light into the back of the porch
