Hi,

Site Address:
Repton Hall
Carriage Drive
Brentry
Bristol
BS10 6TE

Following a recent site survey, a Cedar of Lebanon with a large split in one of the limbs overhanging the main entrance road, was identified as an urgent issue - see attached pics.

The split goes right through the limb and should it fail it would leave a very large hole in the canopy. It would also come down across the main entrance road.

We plan to take out as much weight as we can without leaving a hole. There are plenty of growth points to bring it back to so it's appearance shouldn't change too much.

We will also install 2 x 4t Cobra bracing at the same time.

Kind Regards

Rich

Richard Price
