

6. Please complete this form and send it in with your planning application remembering:

- Actions which relate to your local area.
- As many actions as possible.
- Actions which meet as many different criteria as possible.

A worked example is shown in the first row for your information.

Ecosystem Services Actions	Policy SD2 criterion
<i>Rainwater from the extension will be collected and used for watering the garden. The rainwater harvesting system is shown on submitted plan 101C dated 12.03.2018.</i>	A, C and D
Water from the roof will be collected and used for watering the garden	a) Sustainably manage land and water environments;
Structure of the roof is strong enough to take a green roof when we can afford it.	b) Protect and provide more, better and joined up natural habitats;
This will encourage bees and other insects, and filter and manage excess rainwater.	c) Conserve water resources and improve water quality;
	d) Manage and mitigate the risk of flooding;
	e) Improve the National Park's resilience to, and mitigation of, climate change;
	f) Increase the ability to store carbon through new planting or other means;
	g) Conserve and enhance soils;
	h) Support the sustainable production and use of food, forestry and raw materials;
Currently we have nowhere to securely store our bicycles. this new structure will enable us to use our bicycles to and from school, and at the weekends, teaching our children about sustainable travel and activities. Beeches Hill is not safe to walk along and cycling with a child seat is safer whereas we have to drive almost all the time to get into town.	i) Reduce levels of pollution;
	j) Improve opportunities for peoples' health and wellbeing;
	k) Provide opportunities for access to the natural and cultural resources which contribute to the special qualities.
