**Please state the condition number(s) to which this application relates**

Condition number(s)

Condition 6: Pre Commencement Condition.

You must carry out a detailed site investigation to find out if the building or land are contaminated with dangerous material, to assess the contamination that is present, and to find out if it could affect human health or the environment. This site investigation must meet the water, ecology and general requirements outlined in 'Contaminated Land Guidance for Developers submitting planning applications' - produced by Westminster City Council in January 2018.

You must apply to us for approval of the following investigation reports. You must apply to us and receive our written approval for phases 1, 2 and 3 before any demolition or excavation work starts, and for phase 4 when the development has been completed but before it is occupied.

Phase 1: Desktop study - full site history and environmental information from the public records.

Phase 2: Site investigation - to assess the contamination and the possible effect it could have on human health, pollution and damage to property.

Phase 3: Remediation strategy - details of this, including maintenance and monitoring to protect human health and prevent pollution.

Phase 4: Validation report - summarises the action you have taken during the development and what action you will take in the future, if appropriate. (C18AA)

Reason:

To make sure that any contamination under the site is identified and treated so that it does not harm anyone who uses the site in the future.

This is as set out in Policy 33(E) of the City Plan 2019 - 2040 (April 2021). (R18AB)

Has the development already started?
