## Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right

Would the proposed change of use result in the building containing more than two flats?

- Yes  
 No

Would a part of the building continue to be:

- In a commercial/business/service use; and/or
- Used as a betting office and/or a pay day loan shop

- Yes  
 No

Would the proposed flat(s) only be situated on floor(s) above a floor where at least some of the other proposed mixed uses are to be provided?

- Yes  
 No

If the building has a ground floor display window, would any of that ground floor be used as a flat?

- Yes  
 No / The building does not have a ground floor display window

Will all the proposed flats have gross internal floor areas of at least 37 square metres, and comply with the [nationally described space standard?](#)

- Yes  
 No

Following the change of use, will each flat only be used as a dwelling:

- By a single person or by people living together as a family; or
- By not more than 6 residents living together as a single household (including a household where care is provided for residents)

- Yes  
 No

# Description of Proposed Works, Impacts and Risks

## Proposed works

Please describe the proposed development including details of the flat(s) and other works proposed

The change of use of the first floor of the building from an office/store to one bedroom flat and the retention of the ground floor as an office/store

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

Existing windows on the first floor.

What will be the net increase in dwellinghouses?

1

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development.

Please provide details of any arrangements required for the storage and management of domestic waste

Bin storage within existing courtyard to the front of the building as shown on drawing number P020

## Impacts and risks

Please provide details of any contamination risks and how these will be mitigated

The property was previously used as an office on the first floor and as warehousing on the ground floor. There are no contamination risks associated with this development

Please provide details of any flooding risks and how these will be mitigated.

Please see attached Flood Risk Assessment

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated

The existing solid walls will be dry lined with "Sound Block" plasterboard, any new internal stud walls will be constructed using a sound resisting construction and the first floor structure will be upgraded to the current level of sound resistance to comply with the requirements of the Building Regulations. The previous usage of the property involved the storage, supply and delivery of mechanical items with delivery vans entering and leaving the premises on a regular basis through out normal working hours. The conversion of the upper floor to residential and the proposed use of the ground floor office/store associated with an "on line" business will significantly reduce ground floor usage and vehicle movements resulting in a significant reduction in noise levels..
