Hello Scott,

Thanks for your note above and additional information you provided.

Per your request:

1. We're looking for whole canopy reduction of 10m to primarily reach solar panels and secondly to improve mental health
2. Please find attached a series of site pictures which show the trees in this application; you'll note that they have been take from the rear and front of the house and where possible I have kept a the house in view to give you the correct orientation.

Please do let me know if you have any further questions.

Thanks

Ras
