Please describe the proposed works

Erection at the rear of the garden of a 6 foot fence to aid in the safety measures of the property to support my son who has ASD and a complete lack of danger and affinity with water (river is present at the rear of the property)

Laying of Patio area at approximately the same height as the ground floor of the dwelling consisting of (bottom dirt layer (smooth and compacted), 100mm of type 1 MOT (compact), 50-75mm of Sand cement with 25mm thick grey paving slabs to eliminate the steep grass hill running from the front fence of the back garden at the side of the property to finish at the same distance of the back of the dwelling building with a 3-4 fencing to segregate off that area. Biodiversity net gain

Householder developments are currently exempt from biodiversity net gain requirements.

I/we confirm that the proposed development, if granted permission, would be exempt from the general biodiversity gain condition.

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended) sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'general biodiversity gain condition'.

However, the 'general biodiversity gain condition' does not apply in relation to planning permission for a development which is the subject of a householder application, within the meaning of Article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).
