Application for Tree Works: Works to Trees Subject to a Tree Preservation Order (TPO) and/or Notification of Proposed Works to Trees in a Conservation Area

Town and Country Planning Act 1990 (as amended)

## Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Tree Location						
Please provide the address of the site where the tree(s) stands (full address if possible)						
Number						
Suffix						
Property Name						
Birdcombe Court Farm Cottage	Birdcombe Court Farm Cottage					
Address Line 1						
Tower House Lane						
Address Line 2						
Address Line 3	Address Line 3					
North Somerset	North Somerset					
Town/city						
Wraxall						
Postcode						
BS48 1JR						
Description of site location must	be completed if postcode is not known:					
Easting (x)	Northing (y)					
348024	171878					
If the location is unclear or there is not a full postal address, describe as clearly as possible where it is						
(for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road')

What Are You Applying For?  Based on the type of work proposed and the location and protected status of the frees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.  Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?  Yes No Do you know the Tree Preservation Order reference number(s)?  Yes No Please indicate whether the reasons for carrying out the proposed works include any of the following.  If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).  Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall Yes No Alleged damage to property - e.g. subsidence or damage to drains or drives.  Yes No If Yes, you are required to provide for:  Subsidence - A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.  The structural damage (e.g. drains walls and hard surfaces) - Written technical evidence from an appropriate expert, including description of damage and possible solutions.  Are you wishing to carry out works to tree(s) in a conservation area?  No Documents and plans (for any tree)  A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).  It would also be helpful if you provided details of any advice given on site by an LPA officer.  Are you providing additional information in support of your application (e.g., an additional schedule of work for the question 'Identification of Tree(s) and Description of Works'?  Yes No	Fax number

## Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

T6 Oak - remove

T9 Oak - remove

T6 & T9 located within the grounds of Birdcombe Farm Cottage, Town House Lane, Wraxall, North Somerset, BS48 1JR (LAND AT, BIRDCOMBE FARM, WRAXALL, BRISTOL) has been implicated as the cause of subsidence damage at the neighbouring property of 36 Yeomead.

The tree works are proposed to stop the influence of the tree(s) on the soil below building foundation level and provide long term stability. Estimated costs of repair to the building are £60,120.00 if the influence of the tree(s) remain and £14,788.80 if the proposed tree works are allowed to proceed. Granting permission will limit these costs. In the event of a refusal we, or our clients, will seek to secure compensation for the additional costs incurred through Section 202(e).

Should the tree/s remain the total cost of repairs will be the Superstructural repairs + Alternative method of repairs = £74,908.80 It is the expert opinion of both the case engineer and arboriculturalist that on the balance of probabilities the supporting information demonstrates the influence of the tree(s).

Note: Further monitoring results may be submitted if these become available during the course of this application.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- · Tree species
- The number used on the sketch plan; and
- · A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- · Reasons for the work; and where trees are being felled
- · Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) – Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

## Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
  - o mark and name surrounding roads
  - o sketch in buildings, including adjoining properties
  - o add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
  - marking all trees on the plan, but only numbering those to which you want to carry out work
  - o showing the approximate distance between the application tree(s) and buildings
  - o adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Tree Ownership	р

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following:  (a) a member of staff  (b) an elected member  (c) related to a member of staff  (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?
○ Yes ⊙ No
Declaration
I/We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.  I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.  I/We also accept that, in accordance with the Planning Portal's terms and conditions:  - Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;  - Our system will automatically generate and send you emails in regard to the submission of this application.
✓ I / We agree to the outlined declaration
