Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

I am submitting this application for planning permission to construct a garden room at my property located at 67a Osborne Road, Brighton. The garden room will be situated in the lower section of my sloped garden, measuring 5.4 meters in width.

Key Features of the Garden Room:

The garden room kit utilizes QuadCore Insulated Panels for the roof, walls, and floor, ensuring high-quality insulation and structural performance.

The unique channel installation method eliminates the need for a traditional timber or steel frame substructure.

The panels incorporate an internal liner, insulation layer, and robust metal facing into a single product, eliminating the need for multiple layers during installation.

Garden Room Specifications:

Width: 4.5 meters

Depth: 3.4 meters

Height: 2.5 meters

Compliance with Regulations:

The construction adheres to all relevant fire safety regulations.

As the garden room is not over 18 meters tall and does not contain multiple dwellings, it is exempt from the requirement for a 'Fire Statement,' as of the regulation changes from 1 August 2021.

The garden room will be constructed within the confines of my property and will not impact neighbouring properties.

Has the work or change of use already started?

Yes

No

Existing Use

Please describe the current use of the site

The site at the bottom of my garden (67a Osborne Road, Brighton) is presently utilized for various purposes. The area primarily consists of flower beds and paving slabs. However, it is not actively used for any specific activities or functions. The space serves as an open and underutilized area, with the flower beds contributing to its aesthetic appeal. The existing layout does not have a designated or practical use, and it is not a focal point for recreational or functional activities.

The proposed garden room will enhance the functionality of the site, providing a purposeful and versatile space for activities such as relaxation, hobbies, or work. The construction will complement the existing garden layout while maximizing the utility of the available space.

Is the site currently vacant?

Yes

No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

Yes

No

Land where contamination is suspected for all or part of the site

Yes

No

A proposed use that would be particularly vulnerable to the presence of contamination

- Yes
- No

Materials

Does the proposed development require any materials to be used externally?

- Yes
- No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

Proposed materials and finishes:

The garden room will be constructed using QuadCore Insulated Panels. These panels integrate internal liners, insulation layers, and robust metal facings. The color of the external wall panels is anticipated to be Anthracite.

Type:

Roof

Existing materials and finishes:

Proposed materials and finishes:

The roof of the garden room will also be composed of QuadCore Insulated Panels with similar technical specifications as the walls. The external color of the roof panels is expected to match that of the walls.

Type:

Doors

Existing materials and finishes:

Proposed materials and finishes:

The entrance to the garden room will feature a uPVC 4 Pane Sliding Patio Door (Medio). This door not only ensures ease of access but also contributes to the overall aesthetic of the garden room.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

 No

Vehicle Parking

Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?

- Yes
 No

Trees and Hedges

Are there trees or hedges on the proposed development site?

- Yes
 No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- Yes
 No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's [Flood map for planning](#). You should also refer to national [standing advice](#) and your local planning authority requirements for information as necessary.)

- Yes
 No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

- Yes
 No

Will the proposal increase the flood risk elsewhere?

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

b) Designated sites, important habitats or other biodiversity features

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

c) Features of geological conservation importance

- Yes, on the development site
- Yes, on land adjacent to or near the proposed development
- No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- Yes
- No

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption:

Temporary exemption for non-major developments (small sites exemption)

Reason for selecting exemption:

The development is classified as a small site, as per the criteria outlined in the biodiversity net gain rules. The temporary exemption until April 2, 2024, aligns with the legislative framework, allowing for an extended timeframe for small sites to implement the biodiversity net gain measures.

Note: Please read the help text for further information on the exemptions available and when they apply

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
