---

Good afternoon David,

Thank you for your email. I have requested for bats as the flight path for emergence/re-entry may have been disrupted by the proposed extension. However, based upon the photos I cannot see any obvious cracks or crevices in the mortar or any raised/missing tiles, so I do not believe there is any potential access for bats to use.

I am satisfied that a preliminary roost assessment of the dwelling is not required.

Kind regards,  
Demi
