— Proposed Future Development

**NOTE:**  
 The college intends to continue to develop the farm area in years to come. Although future plans are not fixed, they are likely to include:

- The extension of the Beef Unit.
- Relocation of the silage clamps to a new position.
- Extension of the new Dairy to the East.
- The construction of a new lambing shed on the site of the existing midden / silage clamps.
- The eventual demolition of the existing dairy to free a future development zone.

Any works carried out within this phase of works should not compromise the future plans of the farm, particularly with reference to service routes, drainage and slurry management.
