Details of the pre-application advice received

It is concluded that the proposed development would result in an acceptable, high quality tourism use in compliance with the requirements of policies SP1 and SP4 of the Island Plan.

The application would improve the overall appearance of the site which in turn, would have a positive impact on the setting of the listed buildings. As such, officers are satisfied the proposal would likely be acceptable in terms of design/character of the area etc.

Officers are satisfied that the use of the building as holiday accommodation, the associated garden and parking areas and increase in roof height would not result in an adverse loss of amenity to neighbours, through overlooking, loss of privacy, noise or loss of outlook.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
