Description of Proposed Works
Please describe the proposed works
Approval is sought for the erection of a first floor extension above the existing attached garage (already converted into a habitable room) to project from the main side elevation by approximately 3 meters with a length of approximately 8 meters. The proposed pitched roof will incorporate a maximum height of approximately 7.5 meters. The proposed extension will provide an additional bedroom. The rear of the existing utility room on the East side of the house will be extended back to square the current property footprint, it will therefore become a double height extension at the rear of the property. This will allow additional space for said bedroom.
