Contact us and we'll arrange for a local Kingspan Klargester expert to visit your home for a full site assessment, should you need it.

Step 2

Choice

Our professional team will work with you to help choose the correct BioDisc model.

Step 3

Set up

We offer full commissioning and activation for your BioDisc, ensuring it runs optimally right from the start.

Step 4

Service

We offer tailored service and maintenance packages for your BioDisc treatment plant.

1400mm *

1995mm *

* Dimensions illustrated here are applicable to the BA and BB models only.

Choosing the right sewage treatment plant for your home with Kingspan Klargester

Kingspan Klargester provides relevant advice and support throughout the wastewater treatment purchasing process based on our in-depth local knowledge and expertise. We offer comprehensive free site visits, professional installation options (optional extra) and expert aftersales care through our national network of accredited installers and engineers.

BioDisc is 100% compliant with European standard EN 12566-3

I'm a homeowner - what do I need to consider before choosing my treatment plant?

The Kingspan Klargester BioDisc sewage treatment system is available to suit all types of domestic applications, catering for single and multi-house properties. BioDisc is engineered to treat wastewater to a very high standard and offers affordable lifetime costs compared to other treatment processes.

- Our team will guide you through:
- Size of treatment plant required
 - Ground conditions around the plant
 - Wastewater discharge options
 - Invert level options

Why BioDisc®?

With strict Environment Agency standards, it's more important than ever to choose a sewage treatment plant that delivers peace of mind with reliable treatment of wastewater.

The Kingspan Klargester BioDisc is built on the back of 65 years' experience and offers the following benefits:

7 YEAR WARRANTY**

Product benefits

Affordable lifetime running costs

Odour free

Trusted and reliable performance

Silent Operation

BioDisc is one of the few systems in the UK which doesn't make use of an air pump (used in an 'aerated' system) which means minimal odour being released. This is verified by an independent odour sampling report (available on request).

At a recent site, our expert team concluded that the domestic BioDisc has the same level of noise as the average ambient background noise outside (between 40-55 decibels).*

40-55 DECIBELS

75-80 DECIBELS

Typical aerated system Decibel equivalent to a coffee grinder machine

Domestic BioDisc Decibel equivalent to a modern refrigerator

* This is a representative figure based on a commercial BioDisc plant.

Register your guarantee online at [kingspan.co.uk/klargesterguarantee](https://www.kingspan.co.uk/klargesterguarantee) to arrange your service and enjoy an extended seven year guarantee period.**

** For BA and BB BioDisc models only, when registered online - terms and conditions apply. Visit: <https://www.kingspan.com/gb/en-gb/products/wastewater-management/warranty-terms>

How it works

Control panel and beacon featuring alarm* and digital display to signal that your system is working optimally (beacon and alarm optional extras).

SmartServ Pro

Ask us about our SmartServ Pro remote monitoring solution (optional extra). With early fault detection, SmartServ Pro lets you know when your system needs serviced, giving you peace of mind. Find out more at helpingyou@kingspan.com

Integrated Pump System also available (for pumped systems only). Our technical team will guide you through the best options for your site.

Sludge Return Pump Rating (Watts)	250	250	250	250	250	250

Invert level options

Three standard drain invert level options are available from stock to match the site topography and where applicable, minimise the excavation depth. The BA, BB and BA-X models are available with an integral pump to move the effluent from the point of treatment, if site level demands.

Environment Agency regulations

As an off-mains homeowner, you must comply with the General Binding Rules by ensuring your treatment system is maintained properly and does not cause pollution. These rules state that you must arrange regular

maintenance for your system, via a trusted service provider. Kingspan Service can help with expert servicing and alarm packages –email helpingyou@kingspan.com

Protect your investment with our Service and Maintenance Plans

We recommend that you service your BioDisc sewage treatment plant once a year. Under Environment Agency regulations, it's now your responsibility to ensure smooth running of your plant.

Our in house Service department offer a range of service packages

including Gold, Silver and Bronze to cater for all homeowners' needs.

To find out more about how you could benefit from a tailored service package from Kingspan, call us on 0333 240 6868 or email helpingyou@kingspan.com
