Description

Please describe details of the proposed development or works including any change of use

The works involve the demolition of Red House to allow the construction of two conventional arrangement 2-bedroom dwellings to fill in the end of the terraced houses and match the exact appearance of the Red House.

In addition, the scheme involves an infill extension between the Red House and The Maybush Inn to form a further 1-bedroom flat incorporating a multi-use community facility to the Public House at ground level.

Has the work or change of use already started?

Yes

No

Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

Red House is a vacant dwelling within the conservation area, that has stood empty for a number of years. In part it is open to the elements and is suffering from severe structural defects over most of its structure. Both the internal and external fabric (walls, floors, roof etc) is defective due to structural movement, water damage, and infestation from wood boring insects. The damage extends to components such as windows, doors, staircases etc.

The purpose of the demolition of the current Red House is to allow for a like-for-like replacement. An opening will be formed at ground level through the side wall of the The Maybush Public House. Some external hard surfaces in the yard area will be removed to create landscaped areas.
