SCOPE OF WORKS

Demolitions and Downtakings

- Existing deck to be dismantled including existing balustrad posts.
- Stone pier to be retained for use as part of proposed structure.
- Stone planter under walkway at basement area to be removed.

Proposed works

- Deck surface to be formed of profiled deck boarding.
- Underside of deck to be clad with timber soffit in open boarded arrangement with recessed downlighters, as show on drawings.
- All new timber to be external grade treated timber.
- All timber fixings to be concealed, to Structural Engineer's details.
- New treated timber railing as per drawings, to be face fixer to timber edge beams.
- New proprietary bike storage box to be installed below walkway.
- 6 no. wall washers to be installed in deck boarding.
- 2 no. recessed downlighters to be installed in soffit to underside of deck.
