Dear Sir/Madam

**Re: Eltham College, College Meadow Access Widening  
At 71 Marvels Lane, Grove Park, SE12 9PH**

Please find enclosed a resubmission of application ref DC/22/127265 which was withdrawn by the Council due to lack of information. The Council had requested elevational details, however, given that the application is for the widening of an existing access only, no elevational details are available.

The application site straddles the boundaries of London Borough of Lewisham and London Borough of Bromley. This same application has already been considered and permitted by London Borough of Bromley with the same information that has been submitted to London Borough of Lewisham. TO assist the Council in registering and considering this application we have now enclosed the delegated report and the planning permission from London Borough of Bromley.

We trust the Council will now be able to register and consider the application in full. We look forward to hearing from you.

Kind regards  
Yours sincerely

**Helen Locking MTRPI**
