January 2024

Dear Ms Cattermole,

**Re: Keepers Cottage, Tidpit, Martin, Hampshire, SP6 3JR
Variation of conditions application
Relating to application 22/11340 approved on 12/01/23**

Please find enclosed a variation of conditions application relating to the stables built at Keepers Cottage, Tidpit.

Stable 1 and 2 were made 1m deeper to provide better accommodation for the applicant's horses. Some of the windows and doors are in slightly different places too. We feel the overall effect of the changes does not alter the overall bulk of the building or the special nature of the National Landscape in which it sits. The stable is of exceptional quality and is appropriate for its purpose and its setting.

For clarity the following documentation is enclosed:

1. Application Form.
2. Location Plan 615/S.01.
3. ML Architecture Drawing 615/S.02 to replace approved drawing 2260/2A
4. Below are some images of the finished stables, now in use

The application fee is £357.00 which will be paid directly by the clients.

We hope that the above is clear but please get back to me should you require any further information or have any questions.

Yours faithfully,

Peter Robinson **RIBA**
Architect
