

SEDGLEY

- 20a Cropwell Road - New Front Door, Access ramp and Canopy

Proposed Canopy Data Sheet

The Fellie Rain Canopy Door Canopy Awning Front Door Canopy for Outdoor Window Porch Shade Patio Roof Cover UV Protection, (Black/LI 90xW100xH28cm)

Door canopy made of weatherproof polycarbonate panels with good resistance, high refractive index, and excellent features; Stronger ABS brackets and thicker aluminum strips prevent components from rusting and corroding and avoid weathering or breakages.

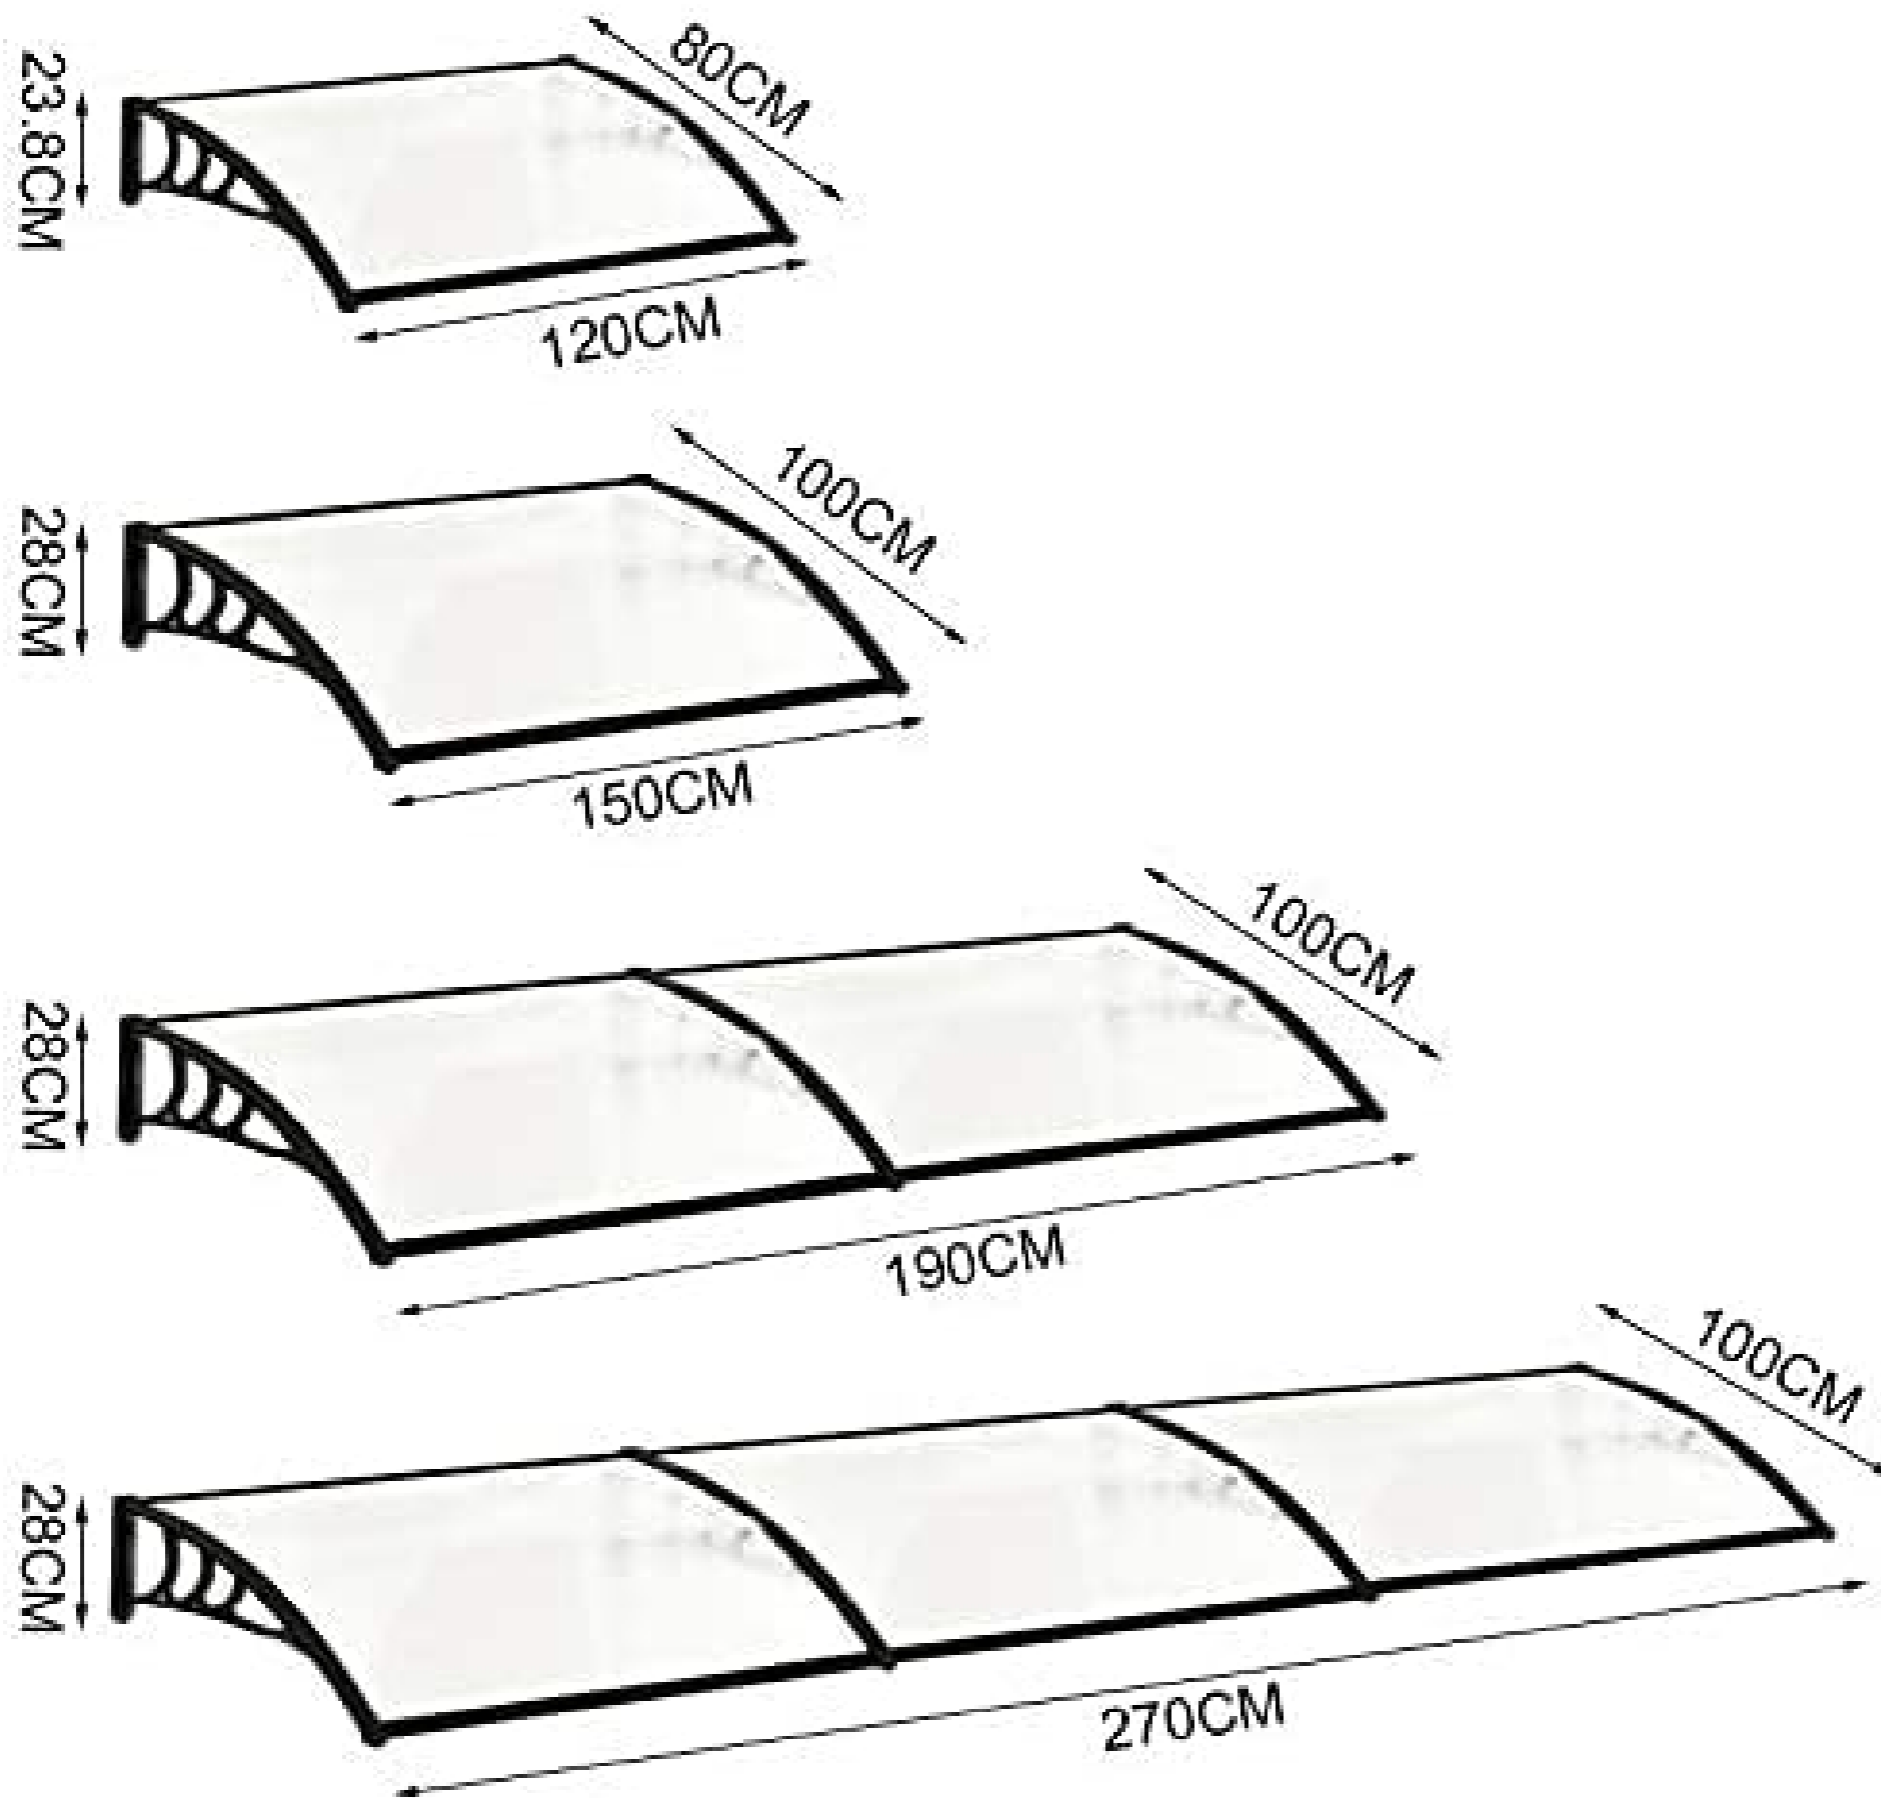

Polycarbonate panels allow light through but filters UV rays making doors and window less prone to fading and peeling plus preventing damage caused by snow, rain and sun throughout the year.

DURABLE MATERIALS

Door Canopy: Weatherproof polycarbonate panels, featured with good resistance, high refractive index, and excellent features.

Brackets: ABS and thicker aluminum strips, ensure that it can be stabilized on the window or door, and can resist wind, snow and rain to a certain extent.

Max Load: 33 lbs/sq.ft (15kg/sqm)
