

NOISE IMPACT ASSESSMENT

Agent: DOWNSVIEW Associates

Project: Demolition of existing garage and office building and construction of outbuilding to provide double garage with office and store room above

Site: Savi Maski Granza, Findon By-Pass, Findon, Worthing, BN14 0TL

Ref: 2023.407.01

Site Location

The site known as Savi Maski Granza is located on the Findon By-Pass, the use of the site is not going to be altered but will be tidied up and made more appealing.

Bearing in mind the location of the site and the mature screening between the main road and the property we don't believe the noise levels would be greatly increased.
