Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The proposed works enlarge to dwelling by way of an alteration to its roof. No part of the proposed works exceed the highest part of the existing roof, no part of the proposed works extend beyond the plain of the existing front roof slope by more than 150mm, the cubic content of the resulting additional roof space does not exceed 40 cubic meters, the proposed materials are of similar appearance to those used in the construction of the existing house and the edge of the proposed dormer closest to the existing roof eaves will be more than 200mm from the eaves of the original roof. We therefore believe the proposed works satisfy the requirements of Class B & Class C of the General Permitted Development Order and that consequently a Lawful Development Certificate should be granted.
