

**Change of use Supporting Statement: -PP 12551091**

This is to confirm that the proposed planning application is for change of use of residential dwelling use (class 3) into Children's home/Mother & Baby unit (Class 2).

Following years of caring for children with learning disabilities in the community and in addition to bringing up a son with developmental delay, I am motivated to provide a nurturing environment for children in social care. At the home, each child's unique needs will be met, fostering personalized care, promoting skill development, and empowering them to lead fulfilling lives within a compassionate community.

The facility will provide 24-hour support for clients/children depending on their individual needs. Thus, every client will be allocated a support worker or more if needed during the day to keep him/her safe and meeting their activities of daily living. There will be a minimum of four staff members during the day and two at night based on two clients within the home.

The home aims to employ ten support workers pro rata in addition to the manager, deputy manager and the responsible individual. Other members of the multidisciplinary team for example drama therapists or physiotherapists etc, will be hired as required based on the clients' individual needs.

Shift Patterns: Day - 08.00 - 19.00

Night - 19.00 - 08.00
