BACKGROUND AND INTRODUCTION

TPO/0174

Proposal

Fallen Cedar

Assessment

Notification email received 02/03/24 to advise a large mature Cedar in garden fallen overnight.

Owner attended Council reception 04/03 to confirm what had happened and show photographs.

I attended site 04/03, tree was clearly diseased and the roots rotten, likely to be Kretzschmaria Deusta also known as brittle cinder which leads to soft rot and whole tree failure.

REPRESENTATIONS

Parish Council: N/A

Summary

I recommend a no objection response, this is a notification to advise of the fallen protected tree and the acknowledgement response will provide a condition to replant.
