Hi Laura,

Further to my site meeting with Robert at the above address, I have now spoken to my colleague and can confirm that the removal of some of the trees and shrubs to allow for the erection of tree protection fencing and to clear the area of vegetation within the footprint of the proposed garage can go ahead without the requirement to discharge any pre-commencement conditions providing the work is limited to arboricultural work only, no ground work or excavations is permitted and that the machinery and equipment brought on to the site is limited to that required for the tree and shrub removal.

Best wishes

Steve
