

No.1 Grantlands, Commercial Rd, Uffculme

Grantlands was converted into dwellings in the 1950's.

No.1 Grantlands was originally a wood store or other shelter, had its' walls raised and a new roof with dormers added when converted into a dwelling.

It was in no way in its historic / original Victorian state when listed and as such, it is a charming bit of faux Victoriana.

The front door of this property needs urgently replacing.

Please see attached pdf.

The replacement door will be made by a local carpenter with experience of working on other properties in Grantlands.

We would like a small window in the new door that will allow some light into the dark hallway and allow residents to see if there is someone at the door, whilst providing privacy.

Door handles will match the other properties.
